We need you!

A rewarding career where the little things you do mean the world to those you serve.

A global pandemic, an aging population and rapid shifts in employment are straining NH's healthcare system. This has further increased demand for Licensed Nursing Assistants (LNAs), universally known as "caregivers".

The NH Needs Caregivers! Initiative – run through the Southern New Hampshire Area Health Education Center – is a grant-funded effort to encourage and help individuals start a healthcare career as an LNA. The initiative helps people complete training, cover training costs*, cover licensing preparation and costs, find a position at a nursing home, hospital, home health agency or a long-term care facility and provide them with a \$500 bonus after six months of employment.

Who is eligible?

Anyone interested in gaining healthcare workforce experience – no college education is required.

NH *needs* Caregi♥ers!
