

NH needs HIGH SCHOOL Caregi♥ers!

Healthcare Heroes in the Making

The **NH Needs Caregivers!** program helps high school students (16 years and older) start healthcare careers as licensed nursing assistants – at no cost! The program pays for training and licensing costs and provides a great way for students to learn lifetime skills, get academic credit and gain clinical hours for the future. After students have finished training, the program provides job placement support to start their careers.

- ✓ Free training and licensing
- ✓ Get academic credit and clinical hours
- ✓ Job placement assistance
- ✓ Start a career in healthcare

*Contact your ELO (Extended Learning Opportunity) Coordinator
or academic advisor to get started.*
